Radial Access for
Visceral Intervention

TERUMO
LEARNING
EDGE™

Why is there a need for R.A.V.I.?

LIVE WEBINAR

Discover the need to approach your procedures through radial access and participate in thought-provoking discussions with a panel of esteemed expert faculty.

LEARNING OBJECTIVES

- Understand the need for transradial access.
- Hear from fellow interventional radiologists how transradial intervention benefits both healthcare professionals and patients alike.
- Identify the possible challenges of switching from femoral to radial access.
- Recognize the importance of how teamwork can contribute to your success in R.A.V.I.
